

PRODUCT INFORMATION

EXCELOLUBE

AM2F Energy EXCELOLUBE is a highly effective and environmentally acceptable ester-based lubricant used in most water-based drilling fluids.

AM2F Energy EXCELOLUBE is used as a lubricant for highly deviated or horizontal directional wells to minimize torque, drag, differential sticking and bit and BHA balling problems.

Advantages:

- Low dosage
- Can be used in all types of water-based drilling fluids
- Effective lubricant for torque and drag reduction
- Will not adversely affect mud properties
- Reduces bit and stabilizer balling
- Compatible with common water-based fluid additives
- Thermally stable at temperatures up to 302 °F / 150°C

ITEM	INDEX
Appearance	Dark Amber Liquid
Density (g/cm ³)	0.92 – 1.00
Solubility	Water dispersible
Flash Point	210°F / 92°C Min
Thermal Stability	150° / 302° F
